

Summer Management Assistant Training Program

PRIDE SEEDS is currently seeking University/College students interested in hands-on agricultural experience for a period beginning the end of April until the end of August 2012. Positions are available for the following areas:

- **Kemptville area**
- **Listowel area (north of Hwy 7)**
- **Woodstock area (south of Hwy 7)**
- **London west.**

Responsibilities will include working with PRIDE Seeds' dealers in assigned areas, coordinating the establishment of seed plots, seed delivery, field signing and liaising with the Regional Manager to ensure 100% customer satisfaction. The successful candidates will be self-motivated, possess a strong agronomic background, a valid drivers' license (record must meet company requirements), excellent communication skills and a professional manner.

Education/Experience:

Ideal candidate would be enrolled in or have graduated from a diploma/degree program in agriculture and have a strong interest in learning more about field crops.

Salary/Benefits:

PRIDE SEEDS offers a competitive hourly wage for this program. Vehicle is provided.

PRIDE SEEDS
is part of AgReliant Genetics which has one of the largest corn breeding programs in North America. Our business focuses on seed and is committed to providing top quality corn, soybean and forage varieties to growers through a dealer distribution system.

For consideration, please forward your resume in confidence by February 10th to:
